CozyPure® Selected as Finalist for Green America's People & Planet Awards

Green Business Manufacturing Green Energy

Norfolk, Va. – CozyPure® shows off their “green thumb” by becoming one of the top 10 finalists for Green America’s People & Planet Awards. Out of 100 other nominated businesses CozyPure® has the opportunity to obtain \$5,000 because of their commitment to clean, renewable energy. This award goes to the top 3 businesses that receive the most votes from the public.

CozyPure® goes full circle when it comes to advocating sustainability. CozyPure® is the only organic and green bedding manufacturer in America to utilize a trio-system of wind, solar and geothermal on-site to produce 100% of the power for their factory, office, warehouse and retail store. Since early 2011 the company has been using zero kWh, which makes them a “Net Zero Energy Building,” something that most companies cannot claim. They are also an EPA Green Energy Power Partner.

Contribution to clean energy:

- Total 146 Solar Panels - 34.4 kW = 84,000 kWh Annually
- Total 2 Wind Turbines - 3.6 kW system = 5,400 kWh Annually
- Total On-Site Clean Energy - 38 kW system = 89,400 kWh Annually

Public voting will continue through Nov. 30, 2012 until 5 p.m.
